EXPERIENCE

UX Designer - Evident Point Software
Vancouver, Canada | January 2019-Present

- Updated visual branding for a major customer, including adjusting colour palette to be WCAG contrast-compliant and creating seasonally varied graphics of the company mascot, which were used in website banners and printed letterhead.

- Lead the competitive analysis effort on 14 other leading products as part of a user research effort, which included deciding on criteria to measure product effectiveness and synthesizing research findings to pinpoint areas for improvement.

- Improved the design of a product feature by creating concept mockups on Figma based on research of the approaches taken by different operating systems. The concepts were then reviewed by company stakeholders.

UX Designer & Developer - Plaid Consulting
Vancouver, Canada | May 2018-July 2019

- Designed a prototype for a web application using Adobe XD and Proto.io, which included typography and brand colours and was built using ReactJS, Bootstrap and SASS, compiled with NodeJS, and tracked using Git bash.

- Conducted initial user research through interviewing data analysts and institutional research personnel to increase awareness on the web application's target market and potential users.

Web Communications Assistant - DFO Canada
Vancouver, Canada | September 2015-April 2016

- Created and converted webpages via HTML/CSS and Bootstrap, modernizing menus, buttons, information states, and UI/UX layout consistency for the DFO government website.

- Designed the fitness centre's monthly newsletters using Photoshop and InDesign, including typography and illustrations, for print and distribution around the office's fitness centre.
